=======================
W10M Group BASICS Guides
=======================

| About

• BASICS guides are very simple guides which doesn't need any special knowledge of any kind.

• It's all based on the System without any other third party apps involved so you don't need to download anything in these guides.

• The aim of these guides is to cover everything a user need to know about some certain aspects of the system or how to achieve doing some things.
